## STATIONERY AND PRINTING

DEPARTMENT OF THE INTERIOR, May 18, 1850.

SEPARATE PROPOSALS for furnishing the stationery, and for executing the printing of this Department, during the fiscal year ending June 30, 1851, will be received until 3 o'clock, p. m., on the 29th day of June next. Those unaccompanied by satisfactory testimonials of ability to fulfil a contract will not be considered.

All the articles of stationery must be of the very best quality—samples of the principal articles of which, such as paper, quills, metallic pens, lead pencils, knives, ink, &c., must accompany the bids, put up in classes as per schedule; and the Department reserves the right to retain such samples, and pay for the same at the price stated in the offer, or to return them, at its option. No bid will be considered where the articles accompanying it are not of the kind and quality required for the Department.

ment.

Each proposal must be signed by the individual or firm making it, and must specify a price, and but one price, for each and every article contained in the schedule. Should any articles be required not enumerated, they are to be furnished at the lowest market prices, according to quality. Blank forms for proposals will be furnished at the Department to persons applying for them; and as without uniformity therein the Department would find it difficult to make a decision, none will be taken into consideration unless substantially agreeing therewith.

consideration unless substantially agreeing therewith.

The printing must be executed with new and perfect type, and on the best paper used for the different descriptions required. The paper for the printing will be furnished by the contractor; the Department, or the office ordering it, to designate the kind of paper and type, whether script or otherwise, and the number to go on a sheet, when the matter or article will admit of more than one. Each class will be bid for and decided upon separately, and all other things being equal, it will be assigned to the lowest bidder. Where more than one class is assigned to a bidder, they may all be embraced in one contract; and each bidder, who may have one or more classes assigned to him, shall take all such classes, or forfeit his right to any portion of the contract.

All the articles to be furnished and work to be executed must be of the best quality, and delivered without delay when ordered, and to the satisfaction of the head of the office for which they are required.

ordering a greater or less quantity of each and every article contracted for, as the public service may re-

quire.

Bonds, with approved security, to be given by the person or persons contracting; and in case of a failure to supply the articles, or to perform the work, the contractor and his sureties shall be liable for the forfeiture specified in such bond, as liquidated damages. for the lorienter specified in a dated damages.

The subjoined lists specify, as nearly as now can be done, the amount, quality, and description of each of the kinds of articles and work that will be

wanted.

(35- It being impracticable to give a precise description of the nature and quality of the various kinds of printing, bidders are referred to the samples in the different offices for specimens of the general descriptions required.

THE Proprietors have spent much time in bringing this preparation of Sarsaparilla to its present state of perfection; and the experience of fourteen years has furnished them the most ample opportunity to study, in their various forms, the discases for which it is recommended, and to adapt it exactly to their relief and cure. Patients who wish a REALLY GOOD Medicine are invited to give it a trial, and satisfy themselves of its superiority, and the invaluable property it possesses of arresting and curing disease. The bottle has been enlarged to contain ONE QUART, and in its present improved form may safely claim to be the very BEST and CHEAPEST medicine of the age. Its progress to the fame it has attained maybe traced by a long line of facts and cures, that stand as landmarks and beacons for the invalid, pointing the way to the haven of health; and what it has already done for the thousands who have used it, it is capable of doing for the millions still suffering and struggling with disease. It purifies, cleanses, and strengthens the fountain springs of life, and infuses new vigor throughout the whole animal frame.

LIVER COMPLAINT. The following is an extract from a letter received from Rev. William-Galusha:

Венкиние, Vt., Oct. 22, 1848. Mesars. Sands: I have been afflicted with a severe pain in my side, occasioned by a diseased liver, for the last twenty years, suffering at times what language cannot convey; but since taking your Sarsaparilla I have been greatly relieved, so much so that I have been able to attend to my business, and preach occasionally, for the last eighteen months. I wholly discarded all other medicine, and thoroughly tried the Sarsaparilla, which I can recommend in truth and sincerity to all those who are in any way afflicted with any species of scrofulous complaints. There have been some remarkable cures effected by its use in this vicinity. Mrs. I. Shaw, by the use of six bottles, was restored to better health than she had before enjoyed for tenyears; and Mr. W. Stevens, who had been severely afflicted with crysipelas, was entirely cured by the use of a few bottles. Yours truly, WM. GALUSHA.

SCROFULOUS AFFECTION OF THE EYES.

SOUTH KINGSTON, R. I., Oct. 11, 1847.

Messers. Sands: Gentlemen—My little daughter, when one year old, was attacked with a scrotulous humor on her face, which soon after extended into her eyes, causing almost total blindness in one of them and disfiguring her whole face. I employed two physicians to attend her, who exhausted their utmost skill to give her relief, but it all proved useless, and finally one of them remarked to me that he had known of some striking cures effected by Sands' Sarsaparilla, and advised me to try it. I obtained one bottle, which she commenced using, and before it was all used up it had effected an entire cure. It is now over four years since she was cured, and there has been no reappearance of the disease, and we are satisfied that it is a perfect cure. It gives me great pleasure to add that I can recommend it to every sufferer from any similar complaint.

Respectfully yours,

GEORGE ROBINSON.

States, without receiving any permanent benefit, but all the time my general health and strength declining, and the disease making fearful progress; caustic applications were used, and whatever else was thought most efficient for producing a cure; but I am confident the deplorable situation I was in—the laryngitis being accompanied with phthisis and great difficulty in breathing, would soon have terminated my life, had I not obtained relief through the medium of your invaluable Sarsaparilla. I must say, gentlemen, when I commenced using Sarsaparilla I did not place much confidence in its virtues; and that will not surprise you, when you are informed I had tried more than fifty different remedies during the past four years, without any success; but after taking your Sarsaparilla a few weeks, I was obliged at last to yield to evidence. This marvellous specific has not only relieved, but cured me; and I therefore think it my duty, gentlemen, for the benefit of suffering humanity, to give you this attestation of my cure.

To the above-noticed testimonials the following extract is offered, from one recently received from Captain Thomas Carberry, one of our early citizens, distinguished for his general and active benevolence. Among the "very remarkable cures" to which he alludes were several malignant and extensive diseases of the skin, which the vapor bath brings to the surface, instead of effecting a temporary cure; or, still worse, acting as a dangerous repullant, to which liniments, &c., are liable:

"During my late inspectorship of the United States penitentiary the benefits derived from the use of your Vapor Bath, in almost miraculously arresting the progress of a dangerous, malignant epidemic, and performing other remarkable cures, elicited the warm approbation of the late Drs. Thomas and Scott, at the time physicians of the institution, and rendered, in my opinion, the value of the invention incalculable."

BLACKWOOD'S MAGAZINE And the British Quarterly Reviews.

Owing to the late revolutions and counter revolutions among the nations of Europe, which have followed each other in such quick succession, and of which "the end is not yet," the leading periodicals of Great Britain have become invested with a degree of interest hitherto unknown. They occupy a middle ground between the hasty, disjointed, and necessarily imperfect records of the newspapers, and the elaborate and ponderous treatises to be furnished by the historian at a future day. The American Publishers, therefore, deem it proper to call renewed attention to these Periodicals, and the very low prices at which they are offered to subscribers. The following is their list, viz:

THE LONDON QUARTERLY REVIEW, THE EDINBURGH REVIEW, THE NORTH BRITISH REVIEW, THE WESTMINSTER REVIEW, and

BLACKWOOD'S EDINBURGH MAGAZINE. In these periodicals are contained the views, moderately, though clearly and firmly expressed, of the three great parties in England—Tory, Whig, and Radical. "Blackwood" and the "London Quarteriy" are Tory; the "Edinburgh Review." Whig; and the "Westminster Review," Liberal. The "North British Review" owes its establishment to the last great exclesisatical movement in Sculland. "North British Review" owes its establishment to the last great ecclesiastical movement in Scotland, and is not ultra in its views on any one of the grand departments of human knowledge; it was origin-ally edited by Dr. Chalmers, and now, since his death, is conducted by his son-in-law, Dr. Hanna, associated with Sir David Brewster.
